We give to you our book----The 1955 TIGER.

Dedication

To Our Parents

We, the Seniors of Spaulding High School, class of 1955, do hereby dedicate our annual to you, Our Parents. It is with deepest respect and appreciation that we do so. Without your constant guidance and understanding it would have been impossible for us to attain our goal. Our yearbook is one of the most important achievements in our school life and we would like to share it with you. Please accept the dedication of our annual as an expression of the love and appreciation which we have for you.

BOY SCOUTS

"Scouting is a game that has only one aim--and this is Character Building and its implication."

SAFETY PATROLS are always willing to help park cars in emergencies, and they also help wherever they are needed.

BUS DRIVERS of Spaulding are the safest in the state. They bring over 1100 children safely to school each day.

THE LIBRARY, our pride and joy...who could ask for a more beautiful place to read and relax? We find books on any subject. We enjoy a movie once a week, and there are times when we listen to interesting stories and poems.

THE LITTLE BOOK'S STORY

I'm a poor little broken down library book,
Once I was pretty and new,
But a little child left me out in the rain
And the water melted my glue.

My back is loose from my insides,
My cloth coat is faded and torn,
If my author and publisher looked at me now,
They'd wish I had never been born.

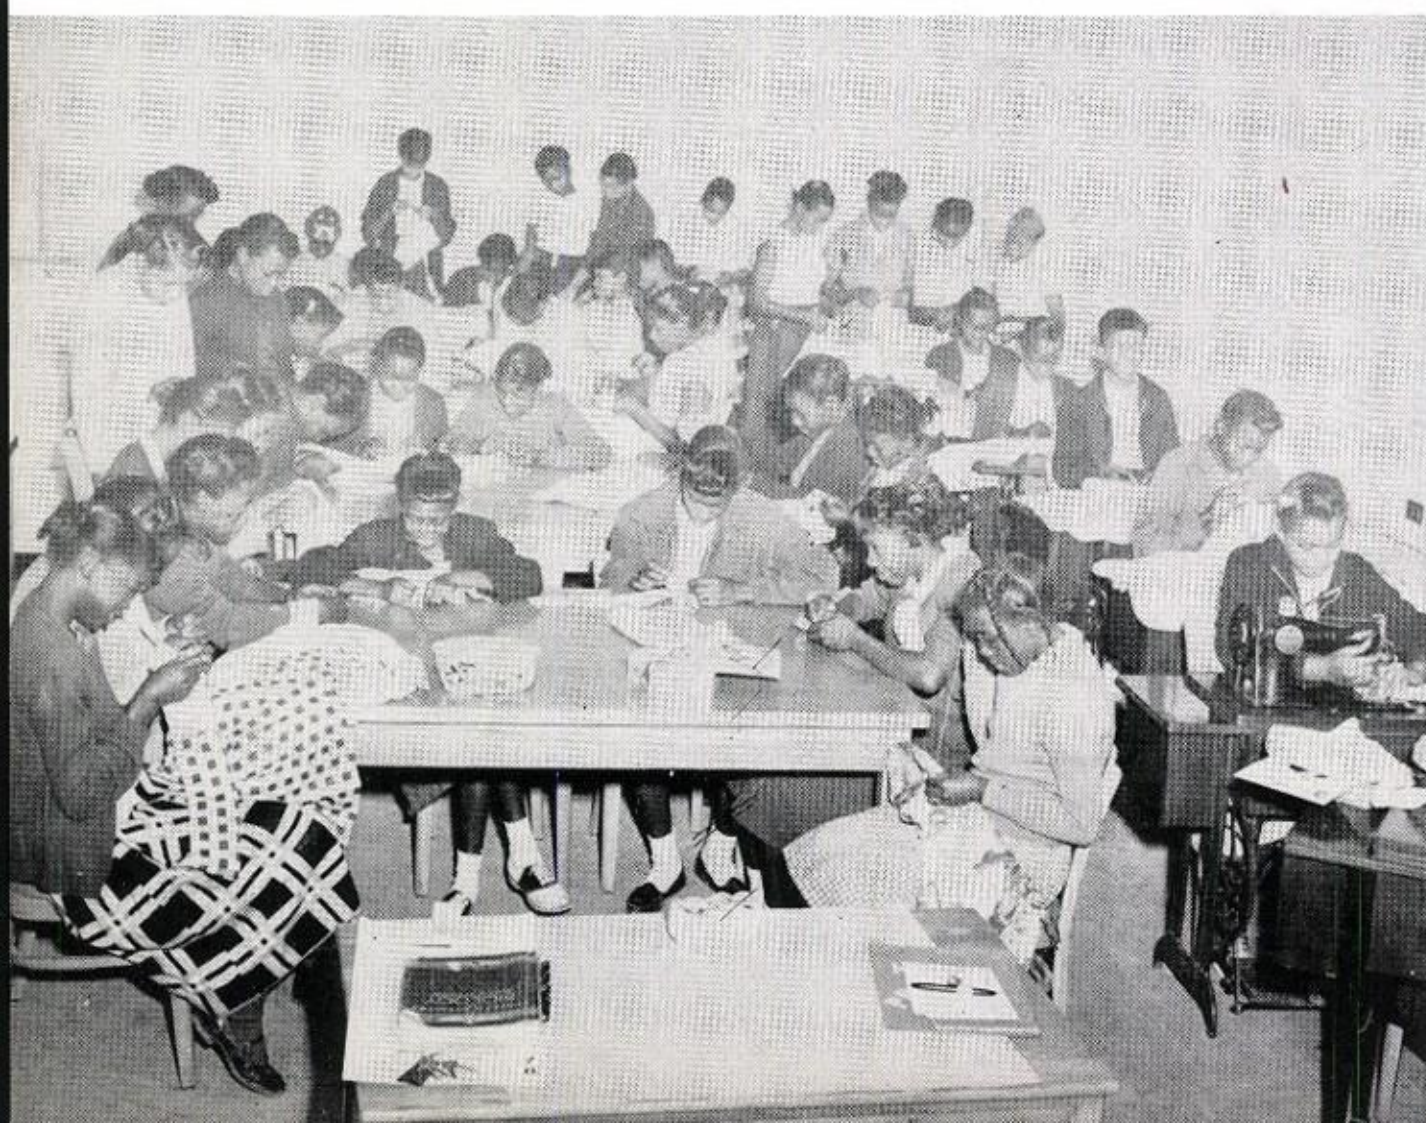

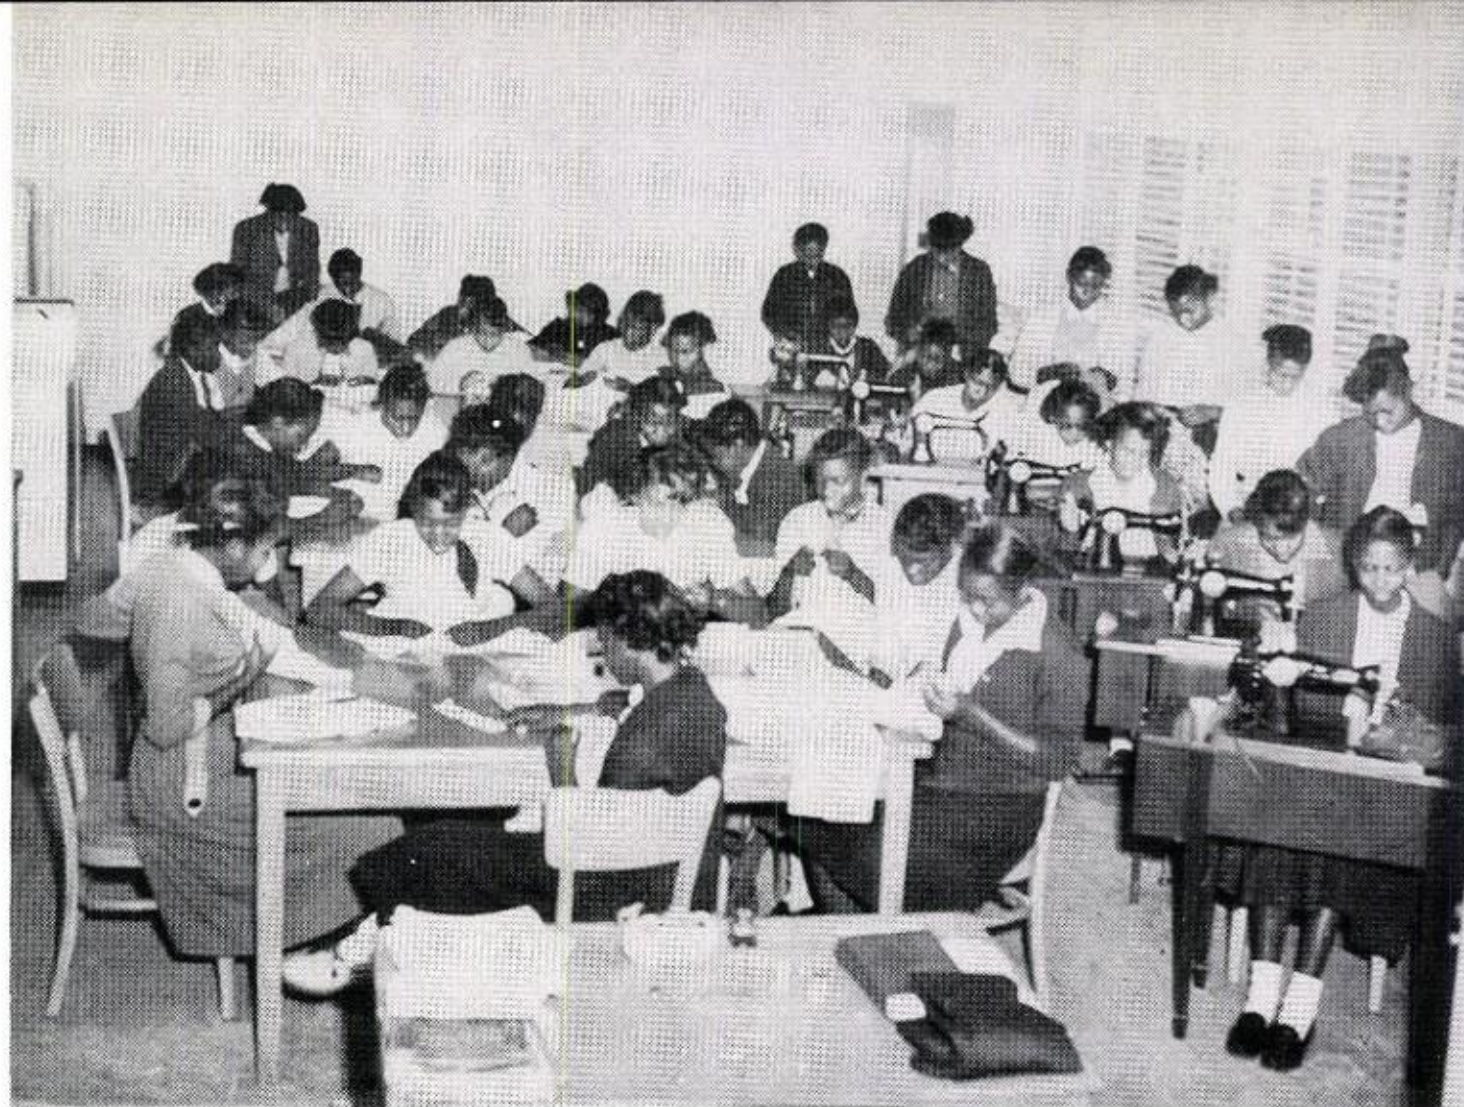

When I'm back on the library shelf
Will you keep me clean and dry?
When you take me home don't let babies and pets
Tear me up; please put me up high.

I'm happiest when a child holds me tight
In hands that are dry and clean.
When you throw me around, you're mean.
This little book's story is sad but true,
Please take care of books as he asks you.

HOME ECONOMICS

Girls of today are
housewives of tomorrow.

ARTS AND CRAFTS

"We learn by doing."
We are always happy to go
to arts and crafts, because
in it we learn many inex-
pensive ways of beautifying
the home. We also learn
how to paint.

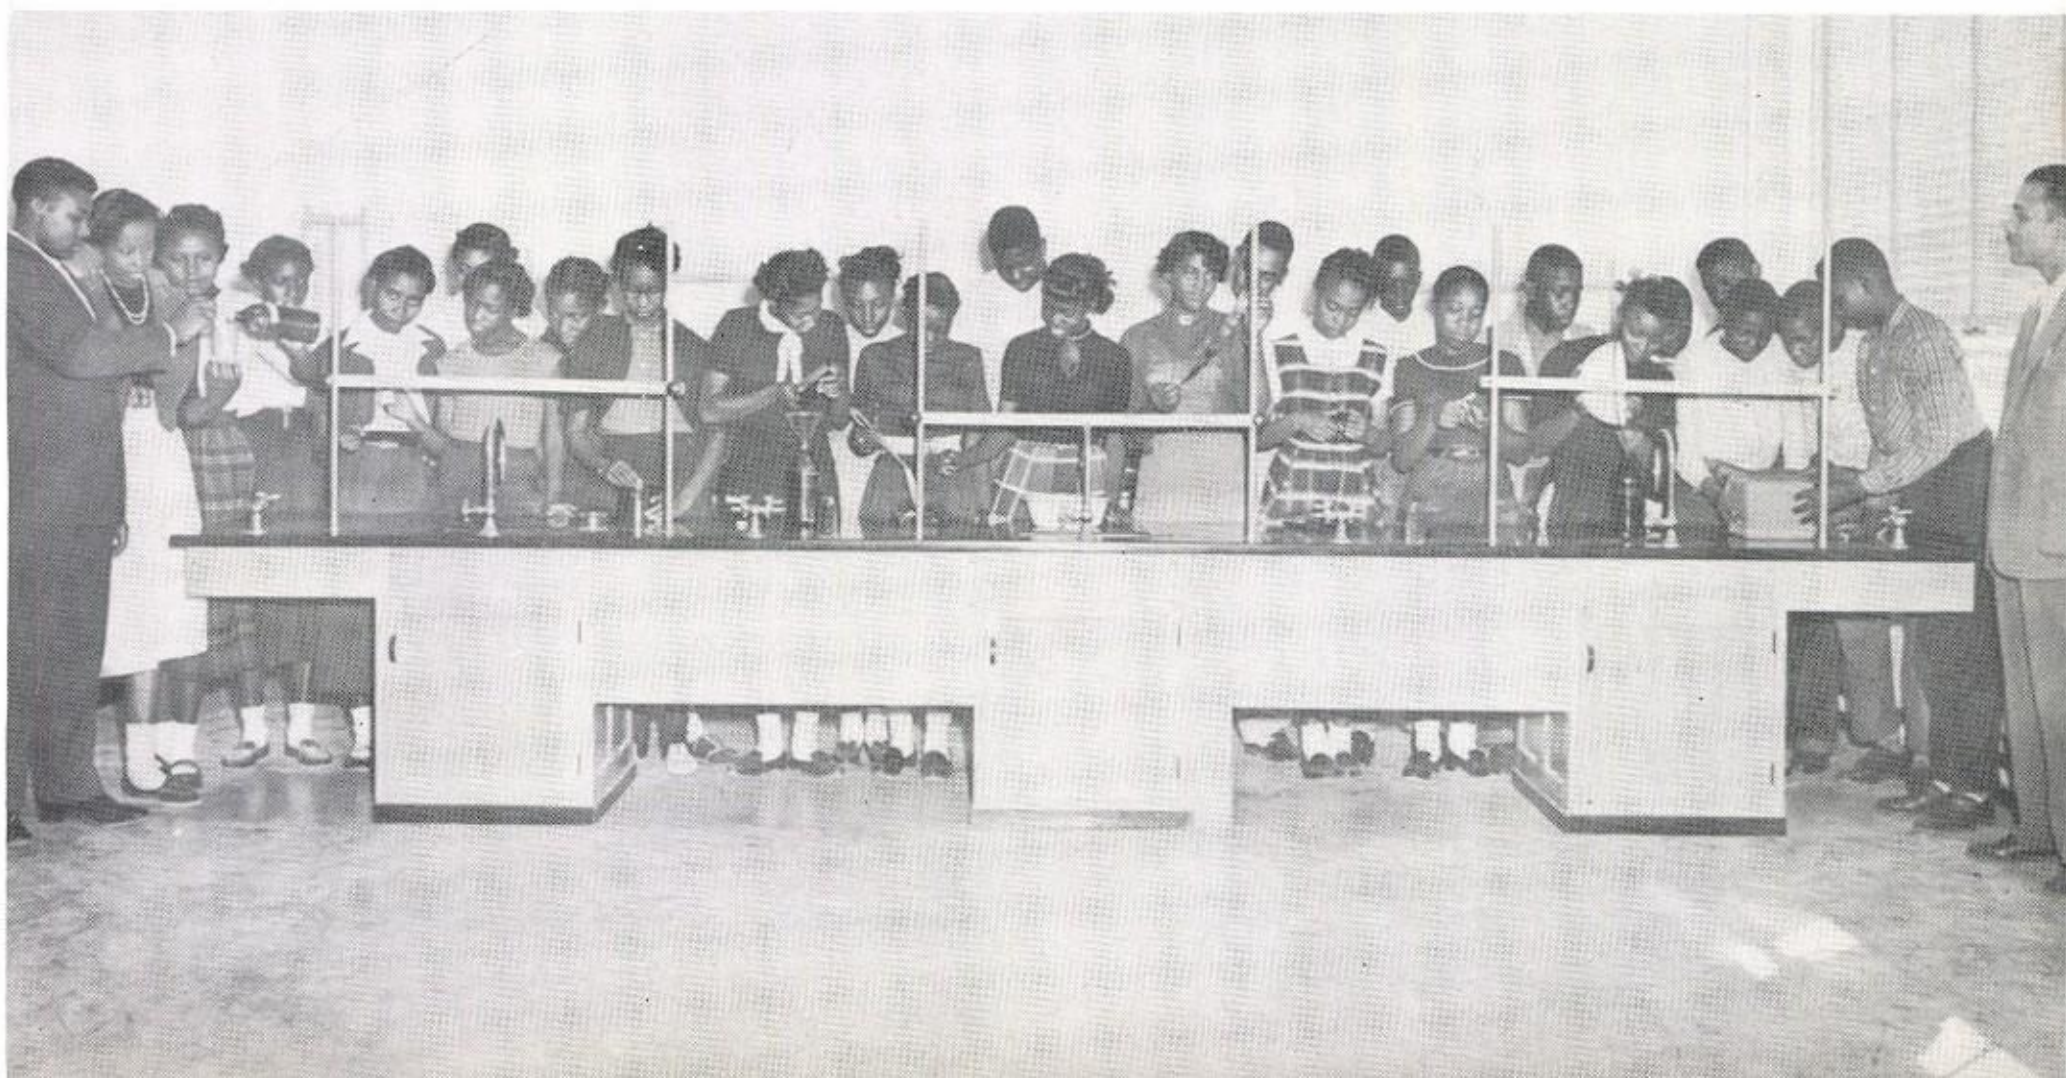

CHEMISTRY IS LIFE. This class in high school chemistry is observing the proper method of setting up

and operating a distillation apparatus as a part of their many experiences while in the laboratory.

This Photography Club is enjoying a hobby which will some day become a useful career.

It was organized this year in order to stimulate the various interests around the school. Mr. C. Calvin Reynolds... teacher.

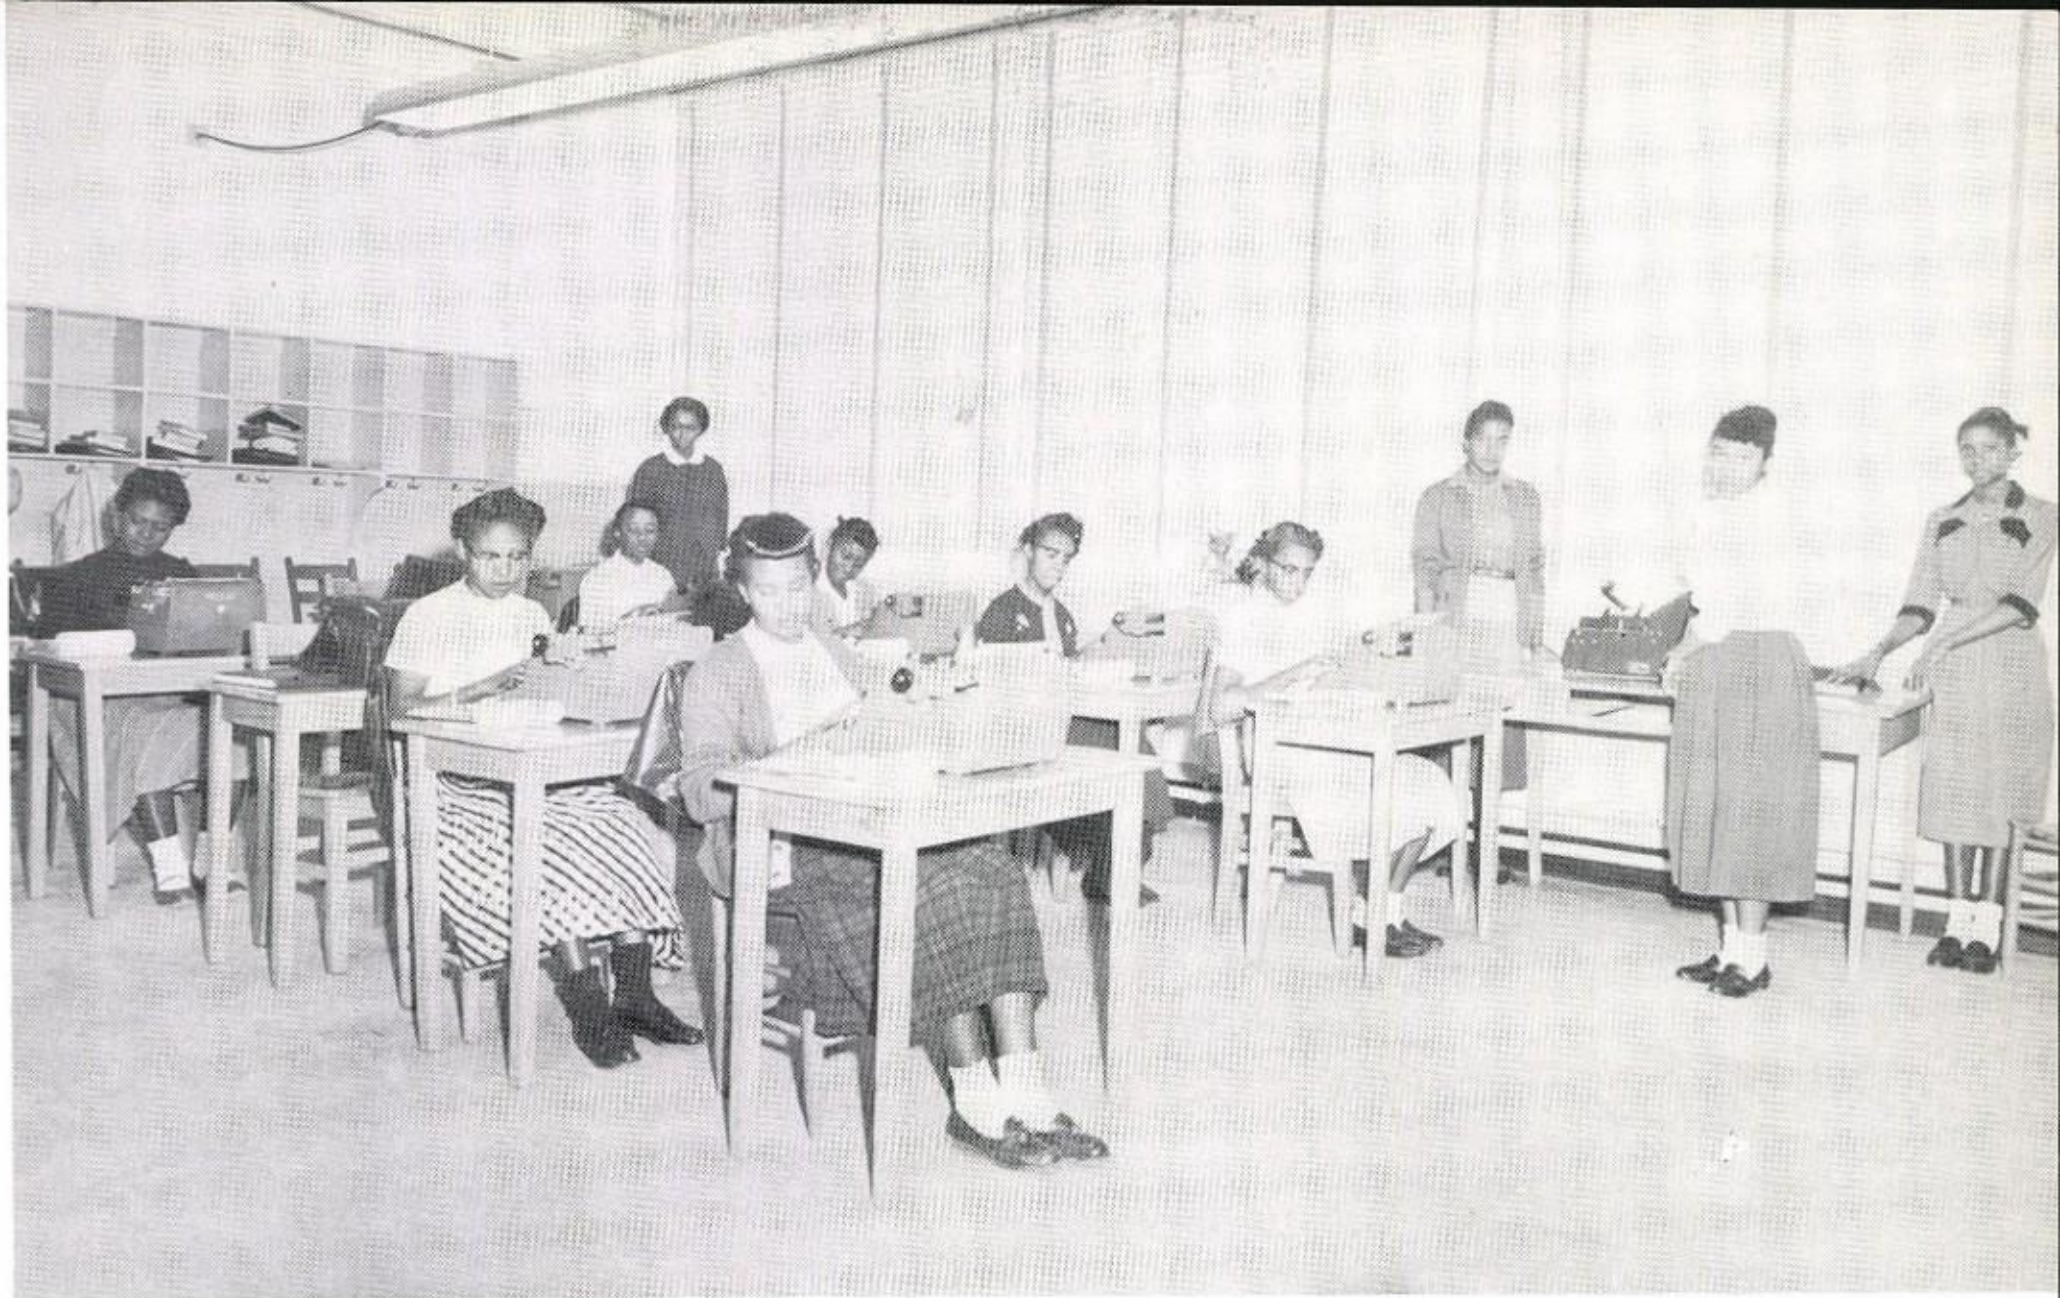

DRAMATICS CLUB

If all the world is a stage, we must learn to act. These dramatic club members are being coached in the arts of expressing themselves orally and emotionally so as to be able to get just what they want out of life.

ENGLISH CLASS

Twelfth graders look on a dramatic scene from "ALMOST SIXTEEN" by Herbert Copeland.

Field trips like this one enable students studying vocational agriculture to learn modern scientific approved farm practices first handed. While on this field trip these agriculture boys are learning approved butchering practices and skills as the teacher demonstrates.

Who said we don't have the best!

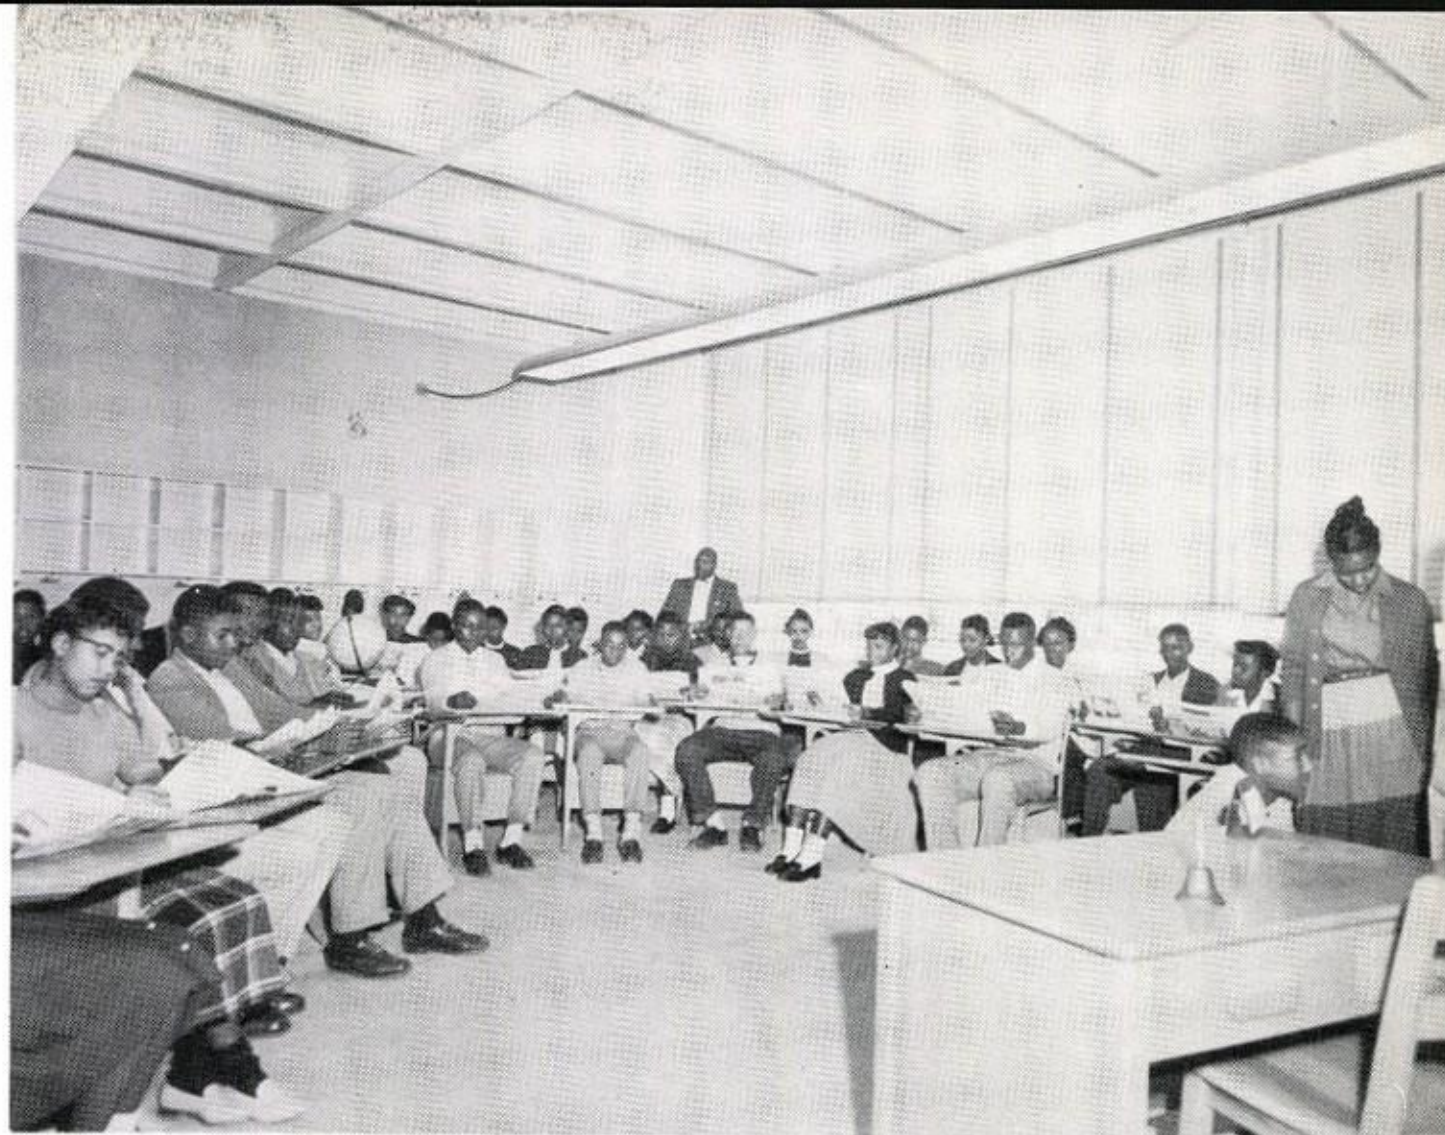

This period of rest and relaxation is always enjoyed by all.

WORLD HISTORY

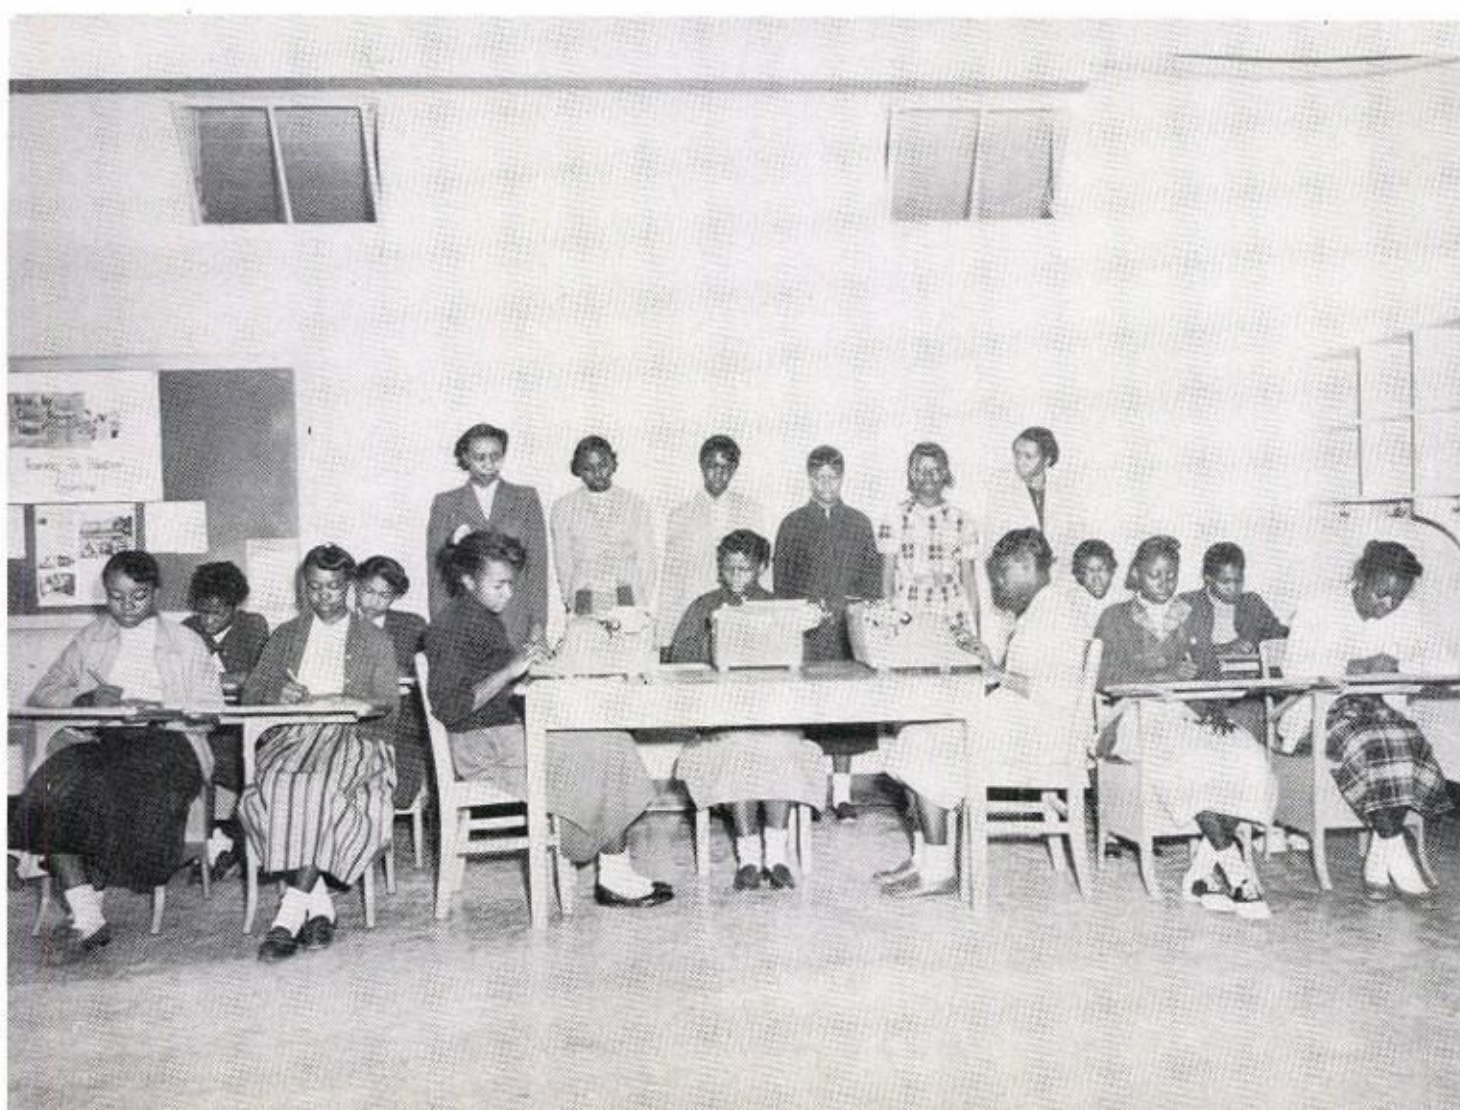

Tenth A is getting ready to discuss from readings and clippings the hot senatorial race in South Carolina.

WILLIETTE SLATER, Queen for 1955

The raaa aa h's and cheers of this little group pushed our football team to conference champs in 1954.

From little acorns, great oaks grow. Let us hope that wise old saying is true of our band. It made a beginning in 1954, but in a few years we should be able to boast about fifty pieces in our band. Band Master, Mr. Brown.
